Summary

I teach Game Programming and Design to grade 9-12 students in order to help them obtain knowledge and certifications to work in the world of Game Development. These students learn the Unity game engine interface, C# programming, and Blender modeling in my classes. My objective is to give each student the tools to make their way into the games industry through design or programming. The students are all given the opportunity to take the Unity Certified User Programmer Exam. I have this certification as well.

I am also the Head esports Coach at Corsicana High School. My responsibility is to ensure that the students have safe, enriching, and fun experiences in a competitive team environment. I organize practices, matches, weekly video scouting and review, and hold my players accountable to strong academic and behavioral standards.

We have had several successful seasons in my time here, including finishing 4th (out of over 110 teams) in Texas in Super Smash Bros. Ultimate for the Fall 2022 season.

Experience

Game Development CTE Teacher and esports Coach at Corsicana ISD

Corsicana Independent School District

Aug 2020 - Present (3 years 7 months)

I teach Game Programming and Design to grade 9-12 students in order to help them obtain knowledge and certifications to work in the world of Game Development. These students learn the Unity game engine interface, C# programming, C++, and Blender modeling in my classes. My objective is to give each student the tools to make their way into the games industry through design or programming.

I am also the Head esports Coach at Corsicana High School. My responsibility is to ensure that the students have safe, enriching, and fun experiences in a competitive team environment. I organize practices, matches, weekly video scouting and review, and hold my players accountable to strong academic and behavioral standards.

We have had several successful seasons in my time here, including finishing 4th (out of over 110 teams) in Texas in Super Smash Bros. Ultimate for the Fall 2022 season.

Information Technology Staff and CTE Instructor

Corsicana Independent School District

Oct 2017 - Present (6 years 5 months)

I work with a team to help maintain and manage more than 6000 devices with over 6000 users, including sole management of over 500 iPads. I'm proficient with the use of Active Directory, Mobile Device Management solutions, Apple School Manager, and the Windows 10 ecosystem. My duties also include creating Purchase Orders and requesting quotes for our department. I communicate with vendors and other departments every day to keep our technology needs met.

Additionally, Monday through Friday, I teach four high school level CTE classes, including App Development I, App Development II, and Web Technology. We use Swift, C#, and Xcode for App Development, and I teach HTML and other web fundamentals to my Web Tech students. I have gained significant experience in C++ through this as well.
